

## Cult Of Gore

## Debauchery

Destroyer of The Light  
Lord in the Eternal Night  
Deceiver of the credulous Eldar  
Bringer of Sorrow  
To the children of Illuvatar

Violator of the sunfire slut  
Drowning the world in blood  
Kreator of monsters and orcs  
Dragonfire must scorch the earth

Cult of gore

Killing with fire and frost  
Nailing the elfbastards to the cross  
Slaves tortured in the dungeons  
The realm is in violent expansion

Victims screaming in pain  
Ripped apart, with a splattered brain  
Fingolfin with the hammer fell  
By the Nihilistic God of Hell

Cult of gore

And a dark sun is rising  
About the blood-drenched battlefield of death  
And we are marching off to total war  
For blood and for gore and for Morgoth  
The dark power of the North  
And the warriors of the North are  
Killing and fighting and maiming  
And raping the nice elven bitches  
And we are all the warriors of Morgoth  
The King of the Cult of Gore
