

## Killing Is Our Culture

Debauchery

A monster killing it's own kind  
Only violence on it's mind  
A 1000 billions dollars for weapons of war  
Another million heads for the lord of gore  
Another genocide out of spite  
And the killers even think they are right  
A whole industry is living off the fight  
And there is no end in sight

Motherfuckin' hell

Weapons of mass destruction  
Biohazard, the end times  
Like a film of science fiction  
A city destroyed with an atomic bomb  
Just another crowded tomb  
Has Chambers of Auschwitz, the rape of hanjing  
Afghanistan burns, the corpses stink  
Just another war on the list  
Politicians rule with and iron fist

Motherfuckin' hell

Killing is our culture  
Another time, another genocide  
Another frontline, another death to decide  
Yes we are mankind  
And we like the death of our own kind  
Killing is our culture
