

# Murder Squad

## Debauchery

Women are my livestock  
Raped by biomechanic cock  
We are fighters of hells arenas  
Rapists of the viking vaginas

We are mighty warriors from the deedest pits of hell  
Marching under blooddrenched banners and screaming bells

Here comes the brotherhood of the blood  
The klan of killers - The murder squad

Here comes the brotherhood of the blood  
The klan of carnage - The murder squad

Feed on the flesh of my brutalised victims  
Taken from the daughters of Odin  
They are strong and tough  
And survive longer when it gets rough

We are the violent demonic bloodpack  
You will die tormented and brutalised  
On our torture racks
