

# Praise The Blood God

## Debauchery

"You seek death and I would gladly rend and tear your soul. I would rip your flesh screaming from your bones and garland this body with your entrails, but your death is to be far worse than even one such as I could devise. Your skull will be honoured with a place in one of the bone mountains within sight of the Blood God."

Obliterating  
Earthshaking  
Desintegrating  
Terminating

Blade, saw, needle and flame  
Killing in the Blood God's name  
Bloodstained shards  
of broken glass  
Pushed right into your ass

Tormented  
Immolated  
Cremated  
Another one dead

Pulverizing the head  
Breaking your fucking neck  
Incinerate the enemy  
We will win - you will see

HAIL - HAIL - HAIL - HAIL
