

Torture Pit

Debauchery

Tortured and maimed
Violent insane
It's all screwed up
What the fuck

We come to kill - We come to rape
For the Bloodgod - We bring the cunt rot
We bring death - We bring the war
We fight for blood - And for gore

Cracking The skull
With a solid ball
Flash of fire
Mummified in barb wire

With the saw in the back
I will break your neck

I will break your back
On the torture back
Beaten and crucified
In this senseless genocide

With the saw in the back
I will break your neck
