

# Touch The Sun

Debbi

the end of the day  
my friends around  
and i have been  
chasing for the sun  
do anything for smile

the place you can stay  
leave your cares behind  
and i would do anything so  
let me be your guide

and when the sunshine comes to town  
and we could be the one  
and when it feels like party time

you clear my mind  
spirit shines so bright  
my inspiration comes from the sun

the end of the day  
let's leave the town  
and we will be  
chasing for the sun  
do anything for smile

the place you can stay  
leave your cares behind  
and i would do anything so  
let me be your guide

and when the sunshine comes to town  
and we could be the one  
and when it feels like party time

you clear my mind  
spirit shines so bright  
my inspiration comes from the sun

rainy days for wasting time  
so let's waste time  
we can spend them chasing for the sun

and when the sunshine comes to town

and when it feels like party time

you clear my mind  
spirit shines so bright  
my inspiration comes from the sun

and when the sunshine comes to town  
and we could be the one  
and when it feels like party time

you clear my mind  
spirit shines so bright  
my inspiration comes from the sun
