

# Girls Night Out

Debbie Gibson

Can't hear my voice above the crowd  
Way too small, it's all too loud  
Haven't seen myself since don't know when  
Alarm goes off, I do it all again

With my sisters, no, you can't touch this  
No misters, no, this is our trip  
DJ play something to dance about

On a girls' night out  
Girls' night out  
Hands in the air  
Shoes on the ground  
A girls' night  
A girls' night  
Girls' night out

Shoulder to shoulder with my tribe  
Bolder and bolder in my vibe  
Gonna take this feeling back home to my man  
The feeling like from when it all began

I know you need to know that you're admired  
And when I'm with my ladies I'm inspired  
Lucky you, I'm going out on the town

On a girls' night out  
Girls' night out  
Hands in the air  
Shoes on the ground

A girls' night  
A girls' night  
Girls' night out

Girls' night out  
Girls' night out  
Living it up  
Just one more round  
A girls' night  
A girls' night  
Girls' night out

With my sisters, no, you can't touch this  
No misters, no, this is our trip  
DJ play something to dance about

It's a girls' night  
Come on, girl it's time to party  
(Turn up the party)  
That's right, we're just getting started now  
A girls' night  
Girls' night out  
(Come on girls, ooh)  
Come on, girl it's time to party  
That's right, we're just getting started now  
A girls' night

Girls' night out

Girls' night out

Girls' night out

Living it up

Just one more round

A girls' night

A girls' night

Girls' night out
