

## Another Goodbye

Debby Boone

Just when I could feel myself growing stronger  
Healin' another mistake  
I stared at your face  
And my pain was erased  
And I knew where the feeling could take me

But I just can't go through another goodbye  
I could love you so easy  
But I'm scared to try  
There's no sense in beginning if we're gonna end  
And I can't make it through another goodbye again

Why'd you have to go and say you love me?  
Just when I felt so secure  
It can all fade so fast  
Just the hurt seems to last  
Now I need something I can be sure of

'Cause I just can't go through another goodbye  
I could love you so easy  
But I'm scared to try  
There's no sense in beginning if we're gonna end  
And I can't make it through another goodbye again

So whisper the sound of forever  
And make me believe what I hear  
I know we've got magic together  
But I need to know it won't all disappear

'Cause I just can't go through another goodbye  
I could love you so easy  
But I'm scared to try  
There's no sense in beginning if we're gonna end  
And I can't make it through another goodbye again

No, I just can't go through another goodbye  
I could love you so easy  
But I'm scared to try  
There's no sense in beginning if we're gonna end  
And I can't make it through another goodbye again

No, I just can't go through another goodbye
