

The Name Above All Names

Debby Boone

It's the name above all names
And we will declare it, we will declare it
It's the name above all names
And we will shout it to a dying world

Who will declare my name
Who will shout my name
In the midst of the nations
Who will take the shield of faith
And the sword of my word
And declare my name to a dying world?

He who had declared me thus far
Will walk in even greater power
For the sands of time are running out
By my name will be declared
In this final hour

I am Jehovah, I am that I am
And my trumpet shall soon call out
I formed the worlds with a whisper
But I'm getting ready, I'm getting ready
I'm getting ready to shout

It's the name above all names
And we will declare it, we will declare it
It's the name above all names
And we will shout it to a dying world

It's my will to possess all of your life
I'll take it all, so surrender to me
For I'm building an army
To go in my name
And my words in your mouth
Shall set the captives free

I am Jehovah, I am that I am
And my trumpet shall soon call out
I formed the worlds with a whisper
But I'm getting ready, I'm getting ready
I'm getting ready to shout

It's the name above all names
And we will shout it to a dying world
It's the name above all names
And we will declare it, we will declare it
It's the name above all names
And we will shout it to a dying world
