

# A Wish Comes True Everyday

Debby Ryan

If you've ever been afraid of anything  
This song's for you, I know you're feeling me  
If you ever want to do just something big  
But then you stopped, just couldn't handle it  
If you take a chance then it'll be alright  
Come on you know it's time  
Just pu-pu-push it down  
And then you'll win the fight  
You're better than this  
You're better than that  
Come on, let's make it right

Nothing's getting in my way now (oh oh oh)  
Nothing ever will again (oh oh oh)  
And if you're with me come on say now (oh oh oh)  
We're gonna make it, hey  
We're gonna take what we can  
Now gonna stand up and let them know  
Just gain the courage, get up and go  
Oh no, we're not gonna take it slow  
If you wanna step in there's no time to wait  
A wish comes true everyday

Today's the day, you know it is  
Make it happen, I know you can  
You know you want to do just something big  
Just take the punch, yeah you can handle it  
It can happen to me, it can happen to you  
Go on, go on, go on, go on, go on, go on  
Go make your wish come true  
It's the chance you've got  
To do what you want to  
You're better than this  
You're better than that  
I'm gonna make it new

Nothing's getting in my way now (oh oh oh)  
Nothing ever will again (oh oh oh)  
And if you're with me come on say now (oh oh oh)  
We're gonna make it, hey  
We're gonna take what we can  
Now gonna stand up and let them know  
Just gain the courage, get up and go  
Oh no, we're not gonna take it slow  
If you wanna step in there's no time to wait  
A wish comes true everyday

So overcome, now overcoming  
Keep the butterflies out of your stomach  
Take control and do your thing  
If you don't try, nothing's happening  
So do it now, today's the day

We're gonna make it, hey  
We're gonna take what we can  
Now gonna stand up and let them know  
Just gain the courage, get up and go

Oh no, we're not gonna take it slow

Now gonna stand up and let them know

Just gain the courage, get up and go

Oh no, we're not gonna take it slow

Just got the courage, get up and go

Get up and go, get up and go, get up and go

If you wanna step in there's not time to wait

A wish comes true every

Wish comes true everyday, so come on
