

## No Cure

## Decapitated

So proud to discover  
Wicked plans of deep state  
Cracked all their ciphers  
Connected, connected the dots

No cure for conspiracy  
No vax for illiteracy  
Highly contagious

Raised by memes and pop-ups  
Breast-fed by ignorance  
Legions armed with wi-fi  
Fight proxy wars against reason  
Legions armed  
Fight proxy wars against  
Against reason

4chan University graduates  
Experts in funny pictures and cats  
Grew small in shadows of chemtrails  
In fear of syringes  
In fear of  
Syringes, reptiles and sense

That giant asteroid  
Missed the target again  
Your flat Earth is safe  
What a shame  
What a shame

That giant asteroid  
Missed the target again  
Your flat Earth is safe  
What a shame

No cure for conspiracy  
No vax for illiteracy  
Highly contagious
