

Suicidal Space Programme

Decapitated

Ape that always dreamt of stars
But failed to handle small planet
Different sun, same shit
In the gutter far far away

Planet Earth is red
A lot blood was shed
Planet Earth is grey
From cradle to the ashtray

You can escape exhausted land
But you can't run from yourself
You reap what you sow
And you rape what you own

Planet Earth is red
A lot blood was shed
Planet Earth is grey
From cradle to the ashtray

Planet Earth is black
There is no turning back
Planet Earth is black
There's no turning back

Distant worlds
High hopes
Controls set for the unknown
Earthbound motivations

Distant worlds
Controls set for the unknown
High hopes
Earthbound motivations

If we could only start again
We'd gladly repeat all mistakes
