

# Visual Delusion Dream 12052002

Decapitated

Bastard, Lizard! lick my wounds  
Lucid dream, (our) world turns to chaos  
Demonic shadows floating in blood  
Waiting for me to fall asleep

(they whisper... deep...)

Inside my head an outstanding pain  
Millions of voices screaming for help  
Their/venom poured all over me  
An essence (of hate)  
So powerful it destroys

(help me!!!)

My visions all flounder in the whirl  
Of blood storm. see, feel, smell  
I see plastic Jesus nailed to the cross

The black hole of nothingness absorbs all...

(I) see, (I) feel, smell...

Doom, nihility, holocaust comes  
The cataclysm I have feared... comes  
Doom, nihility, holocaust comes..

ORGANIC HALLUCINOSIS  
ORGANIC HALLUCINATIONS  
Organic... visual delusion

Stench of rotting flesh  
Melted seas of human hate  
Doom, nihility, holocaust comes  
The cataclysm I have feared... comes  
Doom, nihility, holocaust comes..

Why must I be born?  
Why must I to be born to this?  
To feel my heart and limbs torn  
To see and dream through these fears  
And shed my poisoned tears?

Cut myself, release the blood  
My time has come  
Why must I be born?

ORGANIC HALLUCINOSIS  
ORGANIC HALLUCINATIONS  
Organic... visual delusion

Cutting my veins, infecting my brain  
Burn my throat burn my eyes  
Throbbing pain throbbing brain  
Heavy lids heavy thoughts

Bitter throat pumping blood

Oh fuck.....!!!!!!
