

Dive

December Avenue

Now tell me if it is hard to breathe
When all the things that you have to leave
are all the things that we shared, all the memories we had and
I wish I could start all over

I don't want to be in this moment
All I wanted is what's best for us
So I'll hold right back, get off from your track but I'm still
here forever

Cause I am the light of the sun that is chasing you down when y
ou're running around
And I wait for the time til you figure it out cause I know you'
re afraid to just

Dive right in to where your heart beats faster
Jump right in to where our hearts beat close enough

Now tell me if it is hard to love
When you're the one who is giving up
I don't want to retrace and I don't want to rephrase all the th
ings that I've said all over

I don't want to be in this moment
All I wanted is what's best for us
So I hold right back, get off from your track but I'm still you
rs forever

Dive right in to where your heart beats faster
Jump right in to where your heart beat closer
Dive right in to where my heart beats faster
Jump right in to where our hearts beat close enough

And I'll watch you over here like the sun that watches over...

Dive right in to where your heart beats faster
Jump right in to where our hearts beat close enough
