

Drive

December Avenue

Take a chance
When life begins to pull you closer
To the edge
To the edge
Make a plan
And learn to realize
That things will find its way
Hey

As your eyes can see the color of
The night that shines on me
I'm awakened by the beauty of
Your love that poisoned me
And as you whisper to my ears
We're both in awe

Why don't you drive and
Take me to a place that we don't know
So I can hold you still and notice
That your love for me is real
Why don't you drive and
Take control of all the best in me
Leave the worries behind every road
Let our story unfold

Take my hand
We'll drive along with the horizon
Till the end
Till the end
We're making plans
Chasing city lights
Been holding up this way
Holding up this way

As I look into my eyes
I see the other side of me
I'm surrounded by the beauty of
The love that captured me
As you breathe into my ears
We're both in awe

Why don't you drive and
Take me to a place that we don't know
So I can hold you still and notice
That your love for me is real
Why don't you drive and
Take control of all the best in me
Leave the worries behind every road
And let our story unfold

Couldn't take me away
In a different space and time
As long as you're here
As long as you're here

Why don't you drive and
Take me to a place that we don't know

So I can hold you still and notice
That your love for me is real
Why don't you drive and
Take control of all the best in me
Leave the worries behind every road

Why don't you drive and
Take me to a place that we don't know
So I can hold you still and notice
That your love for me is real
Why don't you drive and
Take control of all the best in me
Leave our worries behind every road
And let our story unfold

Why don't you drive
Why don't you drive, oh
