

# Better

Declan J Donovan

Caught in the fever  
Caught in the storm  
Beating down on us now  
Losing a battle  
Losing it all  
Round and round, don't know how

I don't feel like wasting your time  
I don't wanna hurt anybody  
I don't feel like letting you go  
But you're better off alone

I hope you're better  
Heaven knows I let you down  
No more together  
Silver lining in the clouds  
I hope you're better

It's time to move on  
Forget all the wrong  
Now that we both can see  
All that we said  
Confused in our heads  
Left us so empty

I don't feel like wasting your time  
I don't wanna hurt anybody  
I don't feel like letting you go  
But you're better off alone

I hope you're better  
Heaven knows I let you down  
No more together  
Silver lining in the clouds  
And when the light breaks  
There's nothing left to take  
Giving us closure so we can start over  
I hope you're better

We were lost in the fire  
Covered up, nowhere to run  
Blaming no one  
'Cause I'm not the one  
I hope you're better  
Heaven knows I let you down  
No more together  
Silver lining in the clouds  
I hope you're better

I hope you're better  
Heaven knows I let you down  
No more together  
Silver lining in the clouds  
And when the light breaks  
There's nothing left to take  
Giving us closure so we can start over  
I hope you're better
