

# Fallen So Young

Declan J Donovan

And only a teen when I thought that we could be  
It's a sign for you and me  
And your eyes so bright like the bluest sea  
And I felt like you, you would complete me

And now I understand  
That this is the start of something new  
And now I understand  
That it were rare for me and you  
And now I understand  
That I will always love you

'Cause darling, I wanna be with you  
'Cause baby, our love would always be true  
And I'll be waiting for our hearts to be one  
And it's rare that I've fallen so young

And when I'm with you, yeah I feel so free  
And through the dark times, yeah you were my company  
There's never lonely days 'cause there's always been you  
And from this day, our love would always be true

And now I understand  
That this is the start of something new  
And now I understand  
That it were for me and you  
And now I understand  
That I will always love you

'Cause darling, I wanna be with you  
'Cause baby, our love would always be true  
And I'll be waiting for our hearts to be one  
And it's rare that I've fallen so young
