

Give You Love

Declan J Donovan

What did I do before you were my every day?
Where did I go before you were my favourite place?
Where did the time go?
Four months don't seem so long when
There was so much we had too say
The first time I heard your voice, made you laugh, saw your face
Dreaming about you
500 miles don't seem so

Far when all we think about
Is how you're gonna make it out
All of our plans, holding your hand and
What I'm gonna say to you
How I'm gonna wait for you
All I know

'Cause I'll give you love
The air from my lungs
Every day, every hour, every minute
I'll give you my life just as long as you're in it
So tell me the same
Don't make me wait
Just let me fall in your arms for a minute
I'll give you my life just as long as you're in it
I'll give you my love

I call you and tell you I found a way, booked a plane
I got us a little space we can stay, out the way
You're stood in the kitchen
Losing your words so you lean in

Then you went and grabbed me tight
Said you wanna kiss me right now, we're alone
Where we belong
I knew it when I saw those eyes, every colour in the sky
Now you know

I'll give you love
The air from my lungs
Every day, every hour, every minute
I'll give you my life just as long as you're in it
So tell me the same
Don't make me wait
Just let me fall in your arms for a minute
I'll give you my life just as long as you're in it

I know, you know I could tell you anything
You feel like home, like I'm where I'm meant to be
I won't let go
You know you're all that I want

I'll give you love
The air from my lungs
Every day, every hour, every minute
I'll give you my life just as long as you're in it
So tell me the same
Don't make me wait

Just let me fall in your arms for a minute
I'll give you my life just as long as you're in it
I'll give you my love
