

Hungry Heart

Declan J Donovan

I've been in over my head I think I lost my way
I was praying tomorrow would be a better day

Ah oooh been looking for somebody like you
Pulling me out of the blue been looking for somebody like you

I just wanna ride all night on your gasoline
Turn this high into memories
I wanna feel my lungs with your remedy
I need your love, you got food for a hungry heart
All night on your gasoline
Turn this high into memories
I wanna feel my lungs with your remedy
I need your love, you got food for a hungry heart

Yeah I been lost in the deep
I was feeling so cold
But it was down at the bottom
I found the antidote, yeah

Ah oooh been looking for somebody like you
Pulling me out of the blue been looking for somebody like you

I just wanna ride all night on your gasoline
Turn this high into memories
I wanna feel my lungs with your remedy
I need your love, you got food for a hungry heart
All night on your gasoline
Turn this high into memories
I wanna feel my lungs with your remedy
I need your love, you got food for a hungry heart
