

# Mama Said

Declan J Donovan

Walking down familiar roads  
But I might as well be lost  
The fairy tales and stories told  
As a child, now I forgot  
(Yeah, yeah)

I'm in the same old place  
How quickly dreams can fade  
Into the sunset (yeah, yeah)  
Grown up too fast, too soon  
Now I remember those  
Words that she taught me

Mama said "we have to dream  
'Cause it might be all we got"  
Take us from forgotten streets  
To a place where we belong

She could be right  
Mama said, my mama, my mama said  
She could be right  
Mama said, my mama, my mama said

Hold the story in my hands  
It's mine to recreate  
Fear might still be in the plans  
It's a game of love and hate  
(Yeah, yeah)

I'm in a different place  
How quickly things can fade  
In just a moment (yeah, yeah)  
Stuck in the fast lane now  
Always I live by  
Those words that she taught me  
(Yeah, yeah)

Mama said "we have to dream  
'Cause it might be all we got"  
Take us from forgotten streets  
To a place where we belong

She could be right  
Mama said, my mama, my mama said  
She could be right  
Mama said, my mama, my mama said

She could be right, ooh  
She could be right

Mama said "we have to dream  
'Cause it might be all we got"  
Take us from forgotten streets  
To a place where we belong

She could be right  
Mama said, my mama, my mama said

She could be right  
Mama said, my mama, my mama said

Mama said, my mama, my mama said  
Mama said, my mama, my mama said  
Mama said, my mama, my mama said  
Mama said, my mama, my mama said
