

Numb

Declan J Donovan

You found me
Drowning in the dark
Waiting for the rain to stop
I tried my best
To light this burning heart
But you can't start a fire without its burn

Everything you give I want
But I always take too much
Everything you need I'm not
Cause I'll always be loveless

I'm sorry I can't give enough
These scars they only leave me numb
I'm paying for my own mistakes
I've given all my feelings away

Everytime you hold me close
I feel you're trying to save a broken soul
I wish that there was more to say
But I've given all my feelings away

Don't pray for me
Cause I'm about to sink
I'm afraid to break your heart again

I'm tired of fighting
My demons from within
It's a war that I might never win

Everything you give I want
But I always take too much
Everything you need I'm not
Cause I'll always be loveless

I'm sorry I can't give enough
These scars they only leave me numb
I'm paying for my own mistakes
I've given all my feelings away

Everytime you hold me close
I feel you're trying to save a broken soul
I wish that there was more to say
But I've given all my feelings away

Get out before it hurts
Time to get out before it burn
Got nothing for you
I'm trying to warn you
Cause I only make it worse

I'm sorry I can't give enough
These scars they only leave me numb
I'm paying for my own mistakes
I've given all my feelings away

I'm sorry I can't give enough

These scars they only leave me numb
I'm paying for my own mistakes
I've given all my feelings away

Everytime you hold me close
I feel you're trying to save a broken soul
I wish that there was more to say
But I've given all my feelings away
