

Ride Or Die

Declan J Donovan

Something 'bout the way move
I've never seen before
Something in the way you touch me
Leaves me wanting more
Never thought I'd ever love
Like loving feels with you
With you I found everything
That I've been waiting for

Show me inside your mind
I'll make you feel alive
Show me the light in your eyes
Your dream's electrified
I'll be yours and you'll be mine
Just take my hand, we'll go tonight
Show me inside your mind
My heart and soul
My ride or die

If you wanna leave this place
Pack up, we'll run away
Paris, London, Tokyo
No, we don't have to stay
Doesn't matter where we are
'Cause all we need is us
By your side through everything
As long as we got love

Show me inside your mind
I'll make you feel alive
Show me the light in your eyes
Your dream's electrified
I'll be yours and you'll be mine
Just take my hand, we'll go tonight
Show me inside your mind
My heart and soul
My ride or die

My ride or die
My heart and soul
My ride or die
My heart and soul
My ride or die
My heart and soul
My ride or die
My heart and soul
My ride or die
My heart and soul
My ride or die

Show me inside your mind
I'll make you feel alive
Show me the light in your eyes
Your dream's electrified
I'll be yours and you'll be mine
Just take my hand, we'll go tonight
Show me inside your mind

My heart and soul
My ride or die

My heart and soul
My ride or die
My heart and soul
My ride or die
My heart and soul
My ride or die
My heart and soul
My ride or die
