

## Infesting the Crypts

Decrepit Birth

Exhume the wretched body from its timeless slumber  
Thrashing the tomb to reveal what's inside  
A maggot-infected corpse stares dismal  
Inhabited by worms chewing holes through your carcass

These ancient lands beckoned the burial of humans  
The unfertile soil infecting the crypts  
Of the once deceased bodies not through decomposure  
Ending their peace, their chances of hell

A vomit-type substance is formed from its innards  
A festering slimes that revels inside

The substance erupts and its stomach bursts open  
Forced down your throat to regurgitate life
