

Vortex of Infinity...Axis Mundi

Decrepit Birth

I close my eyes and take my last breath...drifting
Drifting forward, inward i descend
Break the cycle of suffering...samsara
The ancient portal of eternity

The intense weight of it's energy crushes me
Inward i descend the silver cord

Elliptic spiral strands of evolution
Concentric circles of light surround me

I...Chi...Channeled energies
Metaphysic axiom neuroplexi
Cyclindrical valley of light vibrates
Within the halls of Sushumna
Psychedelic self reflection

Introverted mysticism...I seek myself within
The macrocosm of my soul...dimethyltryptamine

Psychotropic journey of the mind
Into the spectrum of my psyche
Within darkness i find

Purging my soul of self
I lose my false identity / I see the truth within my being
meditation / Spoken mantra
Pulls me inward
Om mani padme hum

Vortex of infinity
Mortal death / Physical / Mind and space
Event horizon
Eternal path unspoken - Draws me into creation
Unnamed origin of all things
Lucidity of imagination

Psychotropic journey of the mind
Into the spectrum of my psyche
Subconscious spectrum of dimension

Pre-life...Life...Afterlife
Time...Times...Half of time

Falling from the physical
Bilinear circle tree of life
Trapped within re-evolution
Into the conscious i descend
Searching for the mystic light of the singularity
Within my imagination
Origin of the illusion
Lost in the finite maze of darkness
