

Lifetime

Decyfer Down

Sitting here with you right now
Is everywhere I wanna be
Looking in your eyes I see
Everything I ever could want
Everything I'll ever need
Has always been here next to me

I wanna spend a lifetime with you
Living in a love that's forever new
For a lifetime I'll be by your side
If it takes forever to show
as long is a word you'll never know
For a lifetime I'll be by your side
For a lifetime I'll be by your side

Lying here with you right now
Is everywhere I wanna be
I'm holding you and I feel
Everything I ever could want
Everything I'll ever need
Has always been here next to me

I wanna spend a lifetime with you
Living in a love that's forever new
For a lifetime I'll be by your side
If it takes forever to show
as long is a word you'll never know
For a lifetime I'll be by your side
For a lifetime I'll be by your side

I will always be the one
The one to hold you
Never be the one to hold you back
I will always be the one
The one to hold you
Never be the one to hold you back

Everything I'll ever need
has always been here

I wanna spend a lifetime with you
Living in a love that's forever new
For a lifetime I'll be by your side
If it takes forever to show
as long is a word you'll never know
For a lifetime I'll be by your side
For a lifetime I'll be by your side
For a lifetime I'll be by your side
