

# Dead To Me

Ded

It's dead to me  
It's dead

Images cut like a knife through my head  
I'm scared that I just might do it  
Get back at everything that's been  
In my way with the blood on my hands  
Shaking, breathing, can't stop bleeding  
This'll be the last time you see me  
You took out a piece of me  
So you know it's just a piece

Kill, kill, kill it - if it moves it's dead to me  
Kill, kill, kill it - if it moves it's dead to me  
Kill, kill, kill it - if it moves it's dead to me

Face down in a memory  
All that's left is an empty space  
It's dead to me  
These scars are what's left of me  
Watch me burn it and walk away

Images charge like a beast in this scene  
I'm so dark, so gone, the epitome  
In this hole you dug you're the enemy  
Everything's cold when you can't feel anything  
You took that when you did what you did to me  
I can't move, subdued no energy  
All I got now, pins and needles  
See I'll keep going on even if I can't breathe

Kill, kill, kill it - if it moves it's dead to me  
Kill, kill, kill it - if it moves it's dead to me

Face down in a memory  
All that's left is an empty space  
It's dead to me  
These scars are what's left of me  
Watch me burn it and walk away

I'm waking up where you left me to die  
I made it through this now I'm more than alive  
You had to show me now I've opened my eyes  
This'll be the last time  
I'm waking up where you left me to die  
I made it through this now I'm more than alive  
You had to show me now I've opened my eyes  
This'll be the last time  
This'll be the last time  
This'll be the last time

Kill, kill, kill it - if it moves it's dead to me

Face down in a memory  
All that's left is an empty space  
It's dead to me  
These scars are what's left of me

Watch me burn it and walk away  
Face down in a memory  
All that's left is an empty space  
It's dead to me  
These scars are what's left of me  
Watch me burn it and walk away  
It's dead to me
