

# Disassociate

Ded

I never wanna be anything like you  
Do as you say not do as you might do  
I don't like when I get like this  
But you make it so hard when you're so full of shit

So follow me  
Like you're a slave  
I'll separate and disassociate

That's just the way it goes  
Stop me you know you won't  
Time that I let you know  
You're trying to be  
You're nothing to me  
That's just the way it goes  
Stop me you know you won't  
Allow me to be so bold  
You're trying to be you're nothing to me

Disassociating myself  
Disassociating myself  
Disassociating myself  
Disassociating

I never wanna be anything like you  
I couldn't disagree anymore though I'd like to  
You drag names through the mud just to fit  
You're a phony in the end and you fucking me sick

That's just the way it goes  
Stop me you know you won't  
Time that I let you know  
You're trying to be  
You're nothing to me  
That's just the way it goes  
Stop me you know you won't  
Allow me to be so bold  
You're trying to be you're nothing to me

Motherfucker get away you never will define me  
Motherfucker get away you never will define me  
Motherfucker get away you never will define me  
Motherfucker get away you never will define me  
Motherfucker get away  
Motherfucker get away you never will define me  
Motherfucker get away you never will define me  
Motherfucker get away you never will define me  
Motherfucker get away

That's just the way it goes  
Stop me you know you won't  
Time that I let you know  
You're trying to be  
You're nothing to me  
That's just the way it goes  
Stop me you know you won't  
Allow me to be so bold

You're trying to be you're nothing to me
