

So fuck me and fuck you too
The world should start over new
Bring out the guillotine
Save all the sympathy
Fuck me and fuck you too
The world should start over new
The elephant in the room
You know you know it's the truth

Make yourself feel so important you're sick
Stitch up the open wound
You're bleeding out real soon
Something's in the wind it's apocalypse
Cleansing the mother of her bastards
It never occurred

Monkey see and monkey do
Monkey does the same as you

So fuck me and fuck you too
The world should start over new
Bring out the guillotine
Save all the sympathy
So fuck me and fuck you too
The world should start over new
The elephant in the room
You know you know it's the truth

All programmed to live until it's too late
Some are denialists
Some take it on the wrist
Some live life in hopes they'll get to the gates
Some hear but never have heard
I guess it never occurred
To us we are a sickness
Fucked up and in decay
We'll see the end of our days

Monkey see and monkey do
Monkey does the same as you

So fuck me and fuck you too
The world should start over new
Bring out the guillotine
Save all the sympathy
Fuck me and fuck you too
The world should start over new
The elephant in the room
You know you know it's the truth
You know it's the truth
You know it's the truth
So fuck you

So fuck me and fuck you too
Fuck me and fuck you too
So fuck me and fuck you too
The world should start over new

Bring out the guillotine
Save all the sympathy
Fuck me and fuck you too
The world should start over new
The elephant in the room
You know you know its the truth
You know it's the truth
