

I Exist

Ded

Fuck it's really something when
You're someone else's nothing
I am under water screaming dying
hope you think it's funny
Now you
Taste me
Shove me
Violate and
Fuck me
Bless me
Hurt me
Severe
And desert me
Are we having fun yet now?

Cut me off at the knees
Cut me off at the knees
Hurt me awfully
Cut me off at the knees
Cut me off at the knees
You wanted what you wanted
And now you got it
You wanted what you wanted
And now you got it
I'm dying to be honest see
I'm buried in your fallacies
I'll get out that's a promise

I'll find my way back to
When I existed before this
It's what I must do
I'll find my way back to
When I existed before
I existed before you

I'm taking back the power that you
Tried to get from I'm only seconds
From your reckoning decide how it
Will be
So I can
Leave you
Drop you
Maniac impromptu
Slit you
Climb out
Wipe away
The bloody mouth

Cut me off at the knees
Cut me off at the knees
Hurt me awfully
Cut me off at the knees
Cut me off at the knees
You wanted what you wanted
And now you got it
You wanted what you wanted
And now you got it

I'm dying to be honest see
I'm buried in your fallacies
I'll get out that's a promise

I'll find my way back to
When I existed before this
It's what I must do
I'll find my way back to
When I existed before
I existed before you

I existed before you
I will exist in this without you
I existed before you
I will exist in this without you

I existed before you
I will exist in this without you
I existed before you
I will exist in this without you

I existed before you
I will exist in this without you
I existed before you
I will exist in this without you

I'll find my way back to
When I existed before this
It's what I must do
I'll find my way back to
When I existed before
I existed before you
I existed before
I existed before you
I existed before you!
