

Parasite

Ded

Release the hounds
There's nowhere safe for you
How will you ever it get back
Fulfill your destiny
Pound for pound
Just take a look at you now
You're just a ghost of what
You used to be, it's gotta be
So hard to look into the mirror
Can you even see the light
Through the thick of the fear?
No one can help with the antidote
The hands on clock around your throat

What's yours is mine
And what's mine is mine
You're divine
So tonight we dine

What's yours is mine
And what's mine is mine
You're divine
So tonight we dine
I'll suck the life from you
It's all that I do
What's yours is mine
What's yours is mine

You'll bow down to
The terror waiting for you
Insatiable in every way there's nothing stopping me
Tie the noose
Even if you could choose
You're stuck in here with me forever in eternity
Bleed
Scratch the skin, you'll never get me out
I'm deeper than deep, I touch your soul my will is too devout
Seethe
Down the veins into the stomach wall
I'm already in, I'll take it all

What's yours is mine
And what's mine is mine
You're divine
So tonight we dine
I'll suck the life from you
It's all that I do
What's yours is mine
What's yours is mine

I am on the inside
Come get me
I am on the inside
Come get me
I am on the inside
Come get me
Come get me

Come get me

Come get me

Come get me

What's yours is mine
And what's mine is mine
You're divine
So tonight we dine

What's yours is mine
And what's mine is mine
You're divine
So tonight we dine
I'll suck the life from you
It's all that I do
What's yours is mine
What's yours is mine
