

Remember The Enemy

Ded

Lost in a thought where was I?
Sick fantasy
Now this is eye for an eye
It's getting hard to follow
The wannabes
There's something wrong here I know
(Now I know, now I know)

You
Can't kill me now
Can't kill me now
Can't kill me now
Can't kill me
I'm done with this suffering
I'm done with this suffering

I've been standing outside of the fight
Did somebody cross out my eyes
Forget about everything
Remember the enemy
Remember the enemy

I've got this blood on my hands
It's bittersweet
I'm sinking in the quicksand
Slowly I need whats left of
This shell of me
Its fucking time to get up
(Get up, get up, get up)

You
Can't kill me now
Can't kill me now
Can't kill me now
Can't kill me
I'm done with this suffering

I've been standing outside of the fight
Did somebody cross out my eyes
Forget about everything
Remember the enemy
Remember the enemy

You've been standing outside of the truth
Did somebody lose it in you
Forget about everything
Remember the enemy
Remember the enemy

Remember the enemy!

I'm done with this suffering
I'm done with this suffering
I'm done with this suffering

I've been standing outside of the fight
Did somebody cross out my eyes

Forget about everything
Remember the enemy
Remember the enemy

You've been standing outside of the truth
Did somebody lose it in you
Forget about everything
Remember the enemy
Remember the enemy

The enemy!
