

Don't Say It (If You Don't Mean It)

Dee Dee Bridgewater

Tell the truth, what do I mean to you?
I get the feeling that you find somebody new
A woman knows, when her man is really trying
Your lips say "I love you", but your eyes tell me you're lying

So, don't say it If you don't mean it
Empty words can lead to a broken heart
When you don't feel it, don't fake it, baby
If you didn't fit the part
You should of told me from the start

Tell me, boy What's gonna be?
If you won't do right, please set my heart free
You see, our romance means more to me than
just a passing thrill
If you don't want my loving,
If you don't want my loving,
Someone else will...

So, don't say it If you don't mean it
Empty words can lead to a broken heart
When you don't feel it, don't fake it, baby
If you didn't fit the part
You should of told me from the start

So, don't say it If you don't mean it
(Said) Empty words can lead to a broken heart
When you don't feel it, (woo) don't fake it, baby
If my loving is too strong for you to do me wrong

So, don't say it If you don't mean it
Empty words can lead to a broken heart
When you don't feel it, don't fake it, baby
If you didn't fit the part
You should of told me from the start

So, don't say it If you don't mean it
Empty words can lead to a broken heart
When you don't feel it, don't fake it, baby
My loving is too strong (for you to do me wrong)

Don't say it, If you don't mean it, oh oh oh
Don't say it, If you don't mean it, oh oh oh
Don't say it, If you don't mean it, oh oh oh
Don't say it, If you don't mean it...
