

All or Nothing More

Dee Snider

Go!

What is your life?
Choose a path, decide what you will do
Anger and strife
Won't get you where you need

There's not a hole
In your soul, it's a place to go through
Through to the moment where you want to be

Grab the ring it's there for taking
(All or nothing, choose)
A life of your own making

All or nothing
All or nothing more
Open your mind
It's your life
Pick yourself up off that floor

All or nothing
All or nothing more
Make a choice
Use your voice
It's your soul you're fighting for

Be not afraid
You've been made to do what you will do
All of the things you need are inside you

There are lessons worth forsaking
(All or nothing, damn)
The rules, they're there for breaking

All or nothing
All or nothing more
Open your mind
It's your life
Pick yourself up off that floor

All or nothing
All or nothing more
Make a choice
Use your voice
It's your soul you're fighting for

All or nothing
What's it gonna be?
All or nothing
You've got to pick

All or nothing
Freedom ain't free
All or nothing
You better make it quick, oh!

All or nothing
All or nothing more
Open your mind
It's your life
Pick yourself up off that floor

All or nothing
All or nothing more
Make a choice
Use your voice
It's your soul you're fighting for

All or nothing (All or nothing)
All or nothing more (Nothing more)
Open your mind
It's your life
Pick yourself up off that floor

All or nothing (All or nothing)
All or nothing more (Nothing more)
It's your choice
Have a voice
It's your soul you're fighting for
