

Before I Go

Dee Snider

I've lived a life worth living
Was always on the run
Gave all I had worth giving
Stand tall now that I'm done
So now, before I go
I'm gonna share something you should know
From the cradle to the grave
You'll be judged by those that you saved

When you see it all through the eyes of angels
Hear me before I go
Then you'll don gossamer wings
And rise to hallowed halls
Then you'll see it all through the eyes of angels
Hear me before I go
You'll be the ones who earned your place
And you're never gonna fall

I fought for what I've got
Gave everything I had
I learned the lessons taught
Some good and some were bad
And now before I go
I'll share with you a thing I know
From the cradle to the grave
Your fate depends on those that you save

When you see it all through the eyes of angels
Hear me before I go
Then you'll don gossamer wings
And rise to hallowed halls
Then you'll see it all through the eyes of angels
Hear me before I go
You'll be the one who earned your place
And you're never gonna fall

No need to run
You are the one
The choice is yours for taking
We've all been told
Reap what you sow
There are promises not meant for breaking

The pride before the fall
Is when you learn to accept it all
From the cradle to the grave
Our fate depends on those that we save

Can we see it all through the eyes of angels?
Hear me before I go
Will we don gossamer wings
And rise to hallowed halls?
We've got to see it all through the eyes of angels
Hear me before I go
Or we'll never earn our place
And forever we will fall
