

Crazy for Nothing

Dee Snider

Another day of waiting here for you
You went away, I can't believe it's true
I'm walking away
Can't take another day
Living in the gap of what you do and what you say
And waiting, and going...

Crazy for nothing
'Cause you're wrong
Fucking up my song
Never helped us get along anyway
Crazy for nothing
But it'll all fall down on you

What is the way? I'm lost, alone
Now I'm astray and there you are at home
I'm running away
'Cause every time I stay
You just roll it over and you look the other way
I'm breaking and going...

Crazy for nothing
We were strong
But the thrill is gone
Never ever should've let you have your way
Going crazy for nothing
But it'll all fall down on you

Every night I see the sky and wish upon a star
Think about you baby as I'm driving in my car
Wish that you had listened
But you always had to be so righteous
Everything is twisted and I'm begging like a dog
I wish I could reach you but I'm walking in a fog
What's the use of trying if you're only gonna shut me down

Going crazy for nothing
'Cause you're wrong
Fucking up my song
Never helped us get along anyway
Going crazy for nothing
But this'll all fall down on you
It'll all fall down on you
It'll all fall down on you!
