

Dead Hearts (Love Thy Enemy)

Dee Snider

You try to destroy my truth
While comforted by a lie
Before now nothing was done
One too many times
I'm going to a place
I hope you never find
Dead hearts can't be broken
But I'm sure you'll try

And again my love runs red
Touch inside there's nothing left

We all hear what they say
What they say
Heavy has no weight
Like words filled with hate
We all hear what they say
What they say
As hard as it can be
Love thy enemy

You try to deny your past
While living in that time
Your true colors show themselves
I see what you imply
My hands are bound again
But is it you that's tied
Dead hearts can't be broken
But I'm sure you'll try
Sure you'll try

We all hear what they say
What they say
Heavy has no weight
Like words filled with hate
We all hear what they say
What they say
As hard as it can be
Love thy enemy

I am redeemer with lifeless eyes
A guardian angel you've come to despise
I am the words of hurt said with such haste
I am the violence you silently face

We all hear what they say
What they say
Heavy has no weight
Like words filled with hate
We all hear what they say
What they say
Heavy has no weight
Like words filled with hate
We all hear what they say
What they say
As hard as it can be
Love thy enemy
