

# For the Love of Metal

Dee Snider

I once was under the blade  
I was once the last in line  
I was the victim of changes  
You can't stop rock n' roll, it is my life  
This is my painkiller  
My obsession runs deep  
For the love of all things loud  
United worldwide fills me with pride

I do it for the love  
I release my hate  
Set my soul ablaze

For the love of metal  
For the love of metal (metal)

As long as I can remember  
It's been there for me  
I run through the hills  
And over the mountain for victory  
I've been south of heaven  
I don't wanna burn in hell  
I've stood strong throughout the years

Live to tell I was born to raise hell

I do it for the love  
I release my hate  
Set our souls ablaze  
We do it for the love  
We release our hate  
When we take the stage

For the love of metal  
For the love of metal (metal)

I do it for the love of metal  
There's no other way  
I do it for the love of metal  
This is my escape

I do it for the love  
I release my hate  
I feel its strength...  
Unleash the metal!

We are all f\*cking metal!

I do it for the love of metal  
There's no other way  
I do it for the love of metal  
It gives me strength
