

Stand

Dee Snider

Faced with the world around you
You know you must make a choice
And know that whatever you do
It's time that you raise your voice
There's not a moment to spare
Show them all you dare

Stand for something
Never fall
No more trusting
Put your name on that wall
Stand for something
Show who you are
Stand up
Don't leave your mark, leave a scar

You thought the best path was nothing
Stood by and watched the world fall
Now you know they ain't bluffing
So when will you heed the call?
It's time for something to change
Time to take the stage

Stand for something
Never fall
No more trusting
Put your name on that wall
Stand for something
Show who you are
Stand up
Don't leave your mark, leave a scar

Show them you're someone
Show 'em they're flawed
You have the fire
This is your cause
It's the fight of your life
But you're not alone
Don't take what they give
Take back the life you own

Stand for something
Never fall
No more trusting
Put your name on that wall
Stand for something
Show who you are
Stand up
Don't leave your mark, leave a

Stand for something
Never fall
No more trusting
Put your name on that wall
Stand for something
Show who you are
Stand up

Don't leave your mark, leave a
Stand up
Don't leave your mark, leave a
Stand up
Don't leave your mark, leave a scar
