

# Time to Choose

Dee Snider

Wondering where you will go?  
I think you already know  
This life ain't win place or show  
You plant the seeds and watch them grow

Life you've been leading brought you to this end (this end)  
Is this a stand one that you will contend (contend)  
There are some rules you never will bend (never)  
Your dreadful choices you just can't defend

Over or under  
Sideways or down  
Good, bad, fly, burn, win or lose  
Time to choose

Choose

Caught in your own dark web  
Hoping your flow will ebb  
You'll never retrace your every step  
They always told you to look before you left

What made you think that the game was deceit? (the game)  
How much you lose equals how much you cheat (you lose)  
Your time is coming, just take a seat  
Can you snatch victory from jaws of defeat?

Will you ride the lightening  
Or will you rise  
Suffer your fate and hope that you survive

Over or under  
Sideways or down  
Good, bad, fly, burn, win or lose  
Time to choose

Time to choose

Choose

You must choose, choose now

So is it now or never  
Decide between truth and a lie  
Flick the switch or pull the lever  
There are decisions you can't justify

You can control your fate (choose now)  
You have the power of one (it's time)  
Change if you can, fore it's too late  
It's never over until you are done

Will you ride the lightening  
Or will you rise  
Suffer your fate and hope that you survive

Over or under

Sideways or down  
Good, bad, fly, burn, win or lose  
Time to choose

Will you ride the lightning, time to choose  
Or will you rise, time to choose  
Suffer your fate, time to choose  
And hope you survive, time to choose

Did you know you lived a lie, time to choose  
Face the truth before you die, time to choose  
Before it's too late, time to choose  
Seal your fate, time to choose

Time to choose, choose

Time to choose
