

Parkbench

Deep Blue Something

If you lead the way
I will follow
Although it's not the way
I would go

They said don't take it
Well, I won't
They said don't fake it
Well, I won't

I would take you there
I would, I would take you there
But you wouldn't care

Early in the morning, freezing
Just to say
Early breakfast on the park bench
Everyday

I won't regret it
And I won't forget it

I would take you there
I would, I would take you there
But you wouldn't care

But you know everything
At least you said so
Would you know everything

At least the music made you smile
And even laugh awhile
And the words, they made you cry

I would take you there
I would, I would take you there
I would take you there
But you wouldn't care
