

# Drop the Weapon

Deep Purple

Everybody shouting, working up a sweat  
Stepping over lines, you know what happened next  
More trouble, than anyone can use  
It's a pre-determined thing, you lose your right to choose

No way to turn it around  
You got no more time, no time to calm yourself down  
Once you press the button man it's coming to a head  
Pretty soon babe you'll be a long time dead

Little brother I'm telling you now  
Your pride can take a hit  
Little brother take a deep breath  
Cool off man, forget about it

Drop the weapon  
Kick it away  
Drop your gun  
Look the other way  
Drop the weapon  
Live another day  
Drop your blade  
Listen, to what I say

Who you trying to impress, you making a bid  
To be a big shot brother, but you're just a small kid  
Now your reputation got a minor stain  
It'll be washed away by tomorrow's rain

Little brother I'm telling you now  
Your pride can take a hit  
Little brother take a deep breath  
Cool off man, forget about it

Drop the weapon  
Kick it away  
Drop your gun  
Look the other way  
Drop the weapon  
Live another day  
Drop your blade  
Listen, to what I say

No sound of silence  
Just streets of violence  
We're in overload  
Wrong side of the road  
Oh San Francisco  
Where the hell did you go  
We have enough of that  
Peace and love

Drop the weapon  
Kick it away  
Drop your gun  
Look the other way  
Drop the weapon

Live another day  
Drop your blade  
Listen, to what I say

No sound of silence  
Just streets of violence  
We're in overload  
Wrong side of the road  
Oh San Francisco  
Where the hell did you go  
We have enough of that  
Peace and love  
Come and hold my hand  
Then we can all stand  
And say a prayer  
To someone out there  
Anyone out there
