

I don't think you hear me when I tell you go away
I don't give a damn what you were trying hard to say

You're such a fake when you try to be a friend to me
I think you make a better enemy
You're talking loud but you're never really saying much
Your shit is out of line and out of touch

Build your bridges, build your bridges
I will burn them down
Build your bridges, build your bridges
I will burn them down to the ground

I wanna hear it from the horse's mouth
Somebody say you want to put me in my place
Yeah

I don't think this hate has given you much room to grow
I don't think you understand there's nowhere left to go

You're such a fake when you try to be a friend to me
I think you make a better enemy
You want a war but you never wanna throw a stone
I think it's best that you leave me alone

Build your bridges, build your bridges
I will burn them down

Build your bridges, build your bridges
I will burn them down to the ground
To the f*cking ground

I wanna hear it from the horse's mouth
Somebody say you want to put me in my place
I wanna slap the taste out of your mouth
I'm gonna wipe that f*cking smile right off your face

Build your walls and I will tear them down
Build your walls and I will tear them down
Build your walls and I will tear them down
Build your walls and I will tear them
I will tear them, I will tear them down

(Tear them, tear them down)

Build your bridges, build your bridges
I will burn them down
Build your bridges, build your bridges
I will burn them down to the ground (ha-ha)

I wanna hear it from the horse's mouth
Somebody say you want to put me in my place
I wanna slap the taste out of your mouth
I'm coming to wipe that f*cking smile right off your face
Yeah
