

So Far Away

Deepfield

I'm out here dying to know the reason why you're gone
I never wanted to be here but here is where I burn
I never open my eyes to see your face again
I never wanted to be here, I'm drowning

Feels like I'm so far away, I'm out here alone
I don't wanna be here...
Be here anymore

And day to day the memories will never fade
I'd give it all away if you could be here, be here now
And I'm caving in, I got a feeling I've reached the end
I cannot pretend to be here, be here now

Feels like I'm so far away, I'm out here alone
I just saw the world disappear in your eyes
Feels like I'm so far away, I'm out here alone
I don't wanna be here (be here anymore)

And I'm giving in, this is a game that no one wins
I've broken where I've been so be here, be here now

Feels like I'm so far away, I'm out here alone
I just saw the world disappear in your eyes
Feels like I'm so far away, I'm out here alone
I don't wanna be here

Come back to me now, make believe
It'll be okay
Come back to me now, make believe
It'll be o...kay
It'll be okay

I'm out here dying to know the reason why you're gone
I never wanted to be here

Feels like I'm so far away, I'm out here alone
I just saw the world disappear in your eyes
Feels like I'm so far away, I'm out here alone
I don't wanna be here, yeah yeah yeah

Feels like I'm so far away...
Feels like I'm so far away...

Feels like I'm so far away, I'm out here alone
I don't wanna be here, be here anymore
