

In My Heart

Deepside Deejays

If you need the kind of love I need
Stay here
If you need the kind of love I need
Stay here

Yes! Tell this to the world
And spread it out!

I know I'm dreaming
I got a feeling
That everything is gonna be alright
My heart is beating
I love this feeling
I'm here with you
I see life through your eyes

You know that time will never be a friend
So live this one until the end
I'm gonna be the same until I die
You know why

Cause I see love
Na na na na na na na
Nothing's gonna change my heart
And I see love
Na na na na na na na
Forever in my heart
Cause I see love
Na na na na na na na
Nothing's gonna change my heart
And I see love
Na na na na na na na
Forever in my heart

Tell this to the world! Yes

You know that time will never be a friend
So live this one until the end
I'm gonna be the same until I die
You know why

Cause I see love
Na na na na na na na
Nothing's gonna change my heart
And I see love
Na na na na na na na
Forever in my heart
Cause I see love
Na na na na na na na
Nothing's gonna change my heart
And I see love
Na na na na na na na
Forever in my heart

Love is the same
But I know your name
And we will never ever be apart

Love is the same
But you know your name
And I will always keep you in my heart
