

Look Into My Eyes

Deepside Deejays

Come look into my eyes
Cause all I need is love
Ooo, how many days
I found myself away
And now I need to stay
Ooo, I know this face
I know how does it feel
When rain is on your skin
Ooo, how much I feel
I know how much I tried
To be just you and I
Ooo, now this is real

Come look into my eyes

Wherever you go
Wherever you are
I feel you so close
Even when you're so far
Whenever you need me
I'll be there I will
You know it's real
How much I feel

Come look into my eyes
Cause all I need is love
Ooo, how many days
I found myself away
And now I need to stay
Ooo, I know this face
I know how does it feel
When rain is on your skin
Ooo, how much I feel
I know how much I tried
To be just you and I
Ooo, now this is real

Wherever you go
Wherever you are
I feel you so close
Even when you're so far
Whenever you need me
I'll be there I will
You know it's real
How much I feel

Wherever you go
Wherever you are
I feel you so close
Even when you're so far
Whenever you need me
I'll be there I will
You know it's real
How much I feel

Come look into my eyes

Wherever you go
Wherever you are
I feel you so close
Even when you're so far
Whenever you need me
I'll be there I will
You know it's real
How much I feel

Wherever you go

Wherever you go
Wherever you are
I feel you so close
Even when you're so far
Whenever you need me
I'll be there I will
You know it's real
How much I feel

Remember you and I
Come look into my eyes
You know it's real
How much I feel
