

## Old Lady

Deer Tick

Well, I'm too old to know  
That I'm too young to stop  
But space and loam won't grow them back  
Well, no matter what I'm rollin'  
"To health" is what I've got  
Facin' the world ain't gonna make me snap  
You can find a mountain  
You can pace me 'round top  
I'll tunnel down Broadway back to you  
You can tape me to the floor  
Lock up all your doors  
Close your eyes and listen for the truth

I never said it would be fun  
And when all said and done  
The starting line was right there at my feet  
I never said that I would quit  
Hey there, friends, come get a load of this  
It would get crazy to be a man for my old lady

From the wind that doesn't listen  
To the sea that doesn't shine  
I can't say I'm surprised that I'm not shy  
Oh, the sky shows me blue  
And your eyes show me you  
Every cell I've got fills up my heart  
But darling, when you need  
To put your mind at ease  
I've got tickets to way you the came  
If you can't show up on time  
Oh, if you make me wait a while  
I'll try my best to understand

I never said it would be fun  
And when all said and done  
The starting line was right there at my feet  
I never said that I would quit  
Hey there, friends, come get a load of this  
I'm gonna get crazy and be a man for my old lady
