

## Only Love

Deer Tick

Working on the courage to cross that line  
I can see a storm cloud swirling in your mind  
Take me down a notch or crumble my tower  
Just give me a couple days and start swinging your hammer

'Cause it's only love, so don't be afraid  
It will let you down, but not today  
It's only love, only love  
It won't let you down until tomorrow

Working on my plan to settle my bones  
Dropping my mask and let my tired eyes show  
I could feel the truth about to fall like rain  
Playing house is starting feel like pain

But it's only love, so don't be afraid  
It will let you down, but not today  
It's only love, only love  
It won't let you down until tomorrow

One last night I know  
One last chance I've blown  
One more night before we dig up what we've sown  
And speak of what we've always known

That it's only love, so don't be afraid  
It will let you down, but not today  
It's only love, only love  
It won't let you down until tomorrow

Only love, so don't be afraid  
It will let you down, but not today  
It's only love, only love  
It won't let you down until tomorrow
