

## Wants / Needs

Deer Tick

Take anything you want  
We've got everything you need  
It's all free of charge  
No purchase's necessary

She want a brand new car  
And I need a brand new soul  
I pull the pin to her heart  
Sit back and watch her explode

Grab all your arms can carry  
'Cause this deal's a steal  
Participation may vary  
Come down and spin the wheel

She need a brand new heart  
And I want a bag of coal  
I put a dent in her car  
Whenever I lost control

Hanging ten off of a cliff's edge  
You wish that you could fly away  
Like an extraterrestrial being from outer space

She need a UFO  
And I need a brand new brain  
This is a horror show  
Gotta fix the window-pane
