

How can you be so gloomy?
I heard the sun is out
How can you be so sunny?
I heard that gloom and doom are all about

I make machines and you are one
Unless, unless
Unless you aren't

How can you be so human?
I heard that you were just an animal

You make machines and I am one
(I was merely dictated)
You make machines and I am one
(I cannot be frustrated or elated)
(I was merely dictated)
You make machines and I am one
(When the gloom or sun are all about)
(I cannot be frustrated or elated)

Unless I can
Have felt the warmth of sun on my face
(I have always felt them both, I have always felt them both)
(I've heard other voices, I've heard other voices)
And then felt glad
(I have always felt them both, I have always felt them both)
(I've heard other voices, I've heard other voices)
Have felt so gloomy when I saw clouds all about
All about, all about
