

Magic Star

Deerhoof

Hold my hand as only one hand can
You are my guide
Hold my hand, you are my only friend
Up in the sky

On a ship, on an airplane, in a car to the star
On a ship, on an airplane, in a car to the star
Valentine, you and me and valentine

See the one that I desire
She's the magic star
He's the one that I desire
See the magic star

Hold my hand as only one hand can
You are my guide
Hold my hand, you are my only friend
Up in the sky

On a ship, on an airplane, in a car to the star
On a ship, on an airplane, in a car to the star
Valentine, I love you love valentine

See the one that I desire
She's the magic star
He's the one that I desire
See the magic star
